If you have the passion to transform something good-as-gone into something good-as-new, you’re ready for UTI’s Collision Repair & Refinish Technology (CRRT) program. Our 51-week CRRT curriculum is designed in close partnership with I-CAR, the industry provider of collision repair training standards defined by car manufacturers, insurance companies and employers.

**COLLISION REPAIR & REFINISH TECHNOLOGY PROGRAM**

Receive hands-on training on state-of-the-industry tools and equipment from ASE-certified instructors with real-world experience. Your collision repair training will cover:

- Non-Structural Repair
- Structural Repair
- Refinishing
- Mechanical & Electrical Repair
- Auto Customizing

**HOW YOU’LL BE RECOGNIZED**

UTI collision repair graduates earn I-CAR’s recognition of their high level of training as Platinum Individuals and can receive as many as nine I-CAR certificates:

- Introduction to Collision Certificate
- Non-Structural Technician ProLevel 1
- Steel Structural Technician ProLevel 1
- Aluminum Structural Technician ProLevel 1
- Refinishing ProLevel 1
- Refinishing ProLevel 2
- Refinishing ProLevel 3
- Steel Welding Certificate
- Aluminum Welding Certificate

**WHY PLATINUM LEVEL STATUS IS IMPORTANT**

Collision repair shops need Platinum level technicians to achieve Gold Class status and receive Direct Referral Program (DRP) business from insurance companies. This makes Platinum level technicians sought-after and valuable to employers. As part of their training, students also will learn about:

- brakes
- climate control
- electronic fundamentals

**WHO WE PARTNER WITH**

UTI has relationships with industry leaders including:

- 3M
- Axalta Coating Systems
- Snap-on
- Chief Alignment
- Lincoln Electric
- CCC Information Services

Our CRRT program is accredited by the National Automotive Technicians Education Foundation (NATEF) in recognition of our courses meeting the highest possible standards.

**PROGRAM HIGHLIGHTS:**

**Auto Customizing**

- **Custom Paint:** Learn the fundamentals of airbrush techniques, special-effect paint techniques and hand pinstriping.
- **Custom Body:** Receive special training in auto body customizing, including frenching antennas and license plates, fabricating roll pans and shaving door handles.

UTI GRADUATES CAN RECEIVE ADDITIONAL INDUSTRY CERTIFICATIONS:
+ Axalta Cromax Pro Certified Refinisher
+ Safety & Pollution Prevention
+ 3M Plastics and Composite Repair System
+ Chief Velocity Certification
+ EPA 609 A/C Certification
+ Lean Efficiency Certification*

WHAT ELSE YOU GET
CRRT students receive additional benefits:
+ Options to complete I-CAR modules to earn employer-recognized certificates
+ Experience with estimating and job blueprinting software
+ Experience with industry-standard equipment and specialty training aids:
  – custom paint and body techniques
  – MIG and squeeze-type spot welding equipment
  – plasma cutter
  – oxy-acetylene to cut metal
  – chief velocity machine
  – paint booths
+ I-CAR course material for reference on CDs or online upon graduation
+ Course materials and tools to use at school

WHAT YOU CAN DO
Collision repair graduates are employed in these careers:
+ Non-Structural Technician
+ Refinish Technician
+ Estimator
+ Parts and Equipment Manager
+ Shop Manager
+ Product Sales Representative
+ Steel Structural Technician
+ Aluminum Structural Technician
+ Electrical/Mechanical Technician
+ Auto Physical Damage Appraiser
+ Shop Owner

WHERE YOU’LL TRAIN
The 51-week CRRT program is available at UTI campuses in Houston, Texas, and Sacramento, California.

WHEN YOU’RE READY TO START
To learn more about UTI’s collision repair program, visit UTI.edu/Collision or call 800-335-2809.

ABRA Auto Body & Glass, with 125 collision centers across the country, is very fortunate to partner with Universal Technical Institute in recruiting and hiring professional, qualified entry-level technicians. These extremely talented individuals have bright futures and career opportunities ahead of them because of the skills and education they acquired at a premier institution.

Michelle DeMarais—National Recruiting Manager
ABRA Auto Body & Glass

*Offered at Houston campus.
